Conditions and Requirements

Document all expenses. Half of the award will be distributed before departure. The balance will be remitted after each recipient: 1) presents the research project to the SSA; 2) compiles and turns in a digital record of the trip (100 images, labeled); 3) submits a financial report, with receipts to Camille Hall, Director of Finance and Administration. Travel must be completed within one year of receiving the award. Fellowship funds cannot be used for study-abroad programs. If a student owes money (tuition) to City College, then this scholarship's funds will be used to pay the bill; any remaining monies will be distributed to the student. Receipt of this scholarship may, depending on the nature of the award, affect the amount of state and federal aid for which a student may be eligible. The winning proposals will be kept in the library. After June 1, 2022, all others will be disposed.
