~ Spring 2022 ~

The City College  
of New York

Dear Friends of the Spitzer School,

I can't believe spring is already upon us. Students at Spitzer have been busy with midterms and pin-ups for weeks and are looking forward to a well-deserved spring break.

We are sending our spring newsletter with a small favor to ask. If you would kindly help spread the word about our upcoming architecture summer career lab, we would be much obliged. This year is particularly exciting for us as it will be the first in-person career lab in two years!

Furthermore, we are thrilled to announce our new fellowship program (*Spitzer Fellows*), which is geared toward making our school a hub of innovation that advances racial and gender justice, supports new and emerging voices, and invites promising practitioners and academics from historically under-represented groups.

Other than that we have some lectures to share, congratulations to extend, and news to point out.

We hope you enjoy the read.

Also, please [send us your stories, news, and achievements](#) and follow us on [Facebook](#), [Instagram](#), [LinkedIn](#), or [Twitter](#).

Yours,

Marta Gutman

Interim Dean and Professor of Architecture
