Dear Applicant,

In keeping with The City College's founding mission, which emphasizes diversity and access to excellence, we are providing prospective students of the Spitzer School of Architecture an opportunity to demonstrate their full imaginative potential by responding to this Creative Challenge.

With this unique component of your application for consideration within the Spitzer School of Architecture, we invite you to express who you are and how you see the world. Share a bit of yourself with us! Your interpretive responses to the following five problems will enable us to get to know you better.

Our best advice is:

- Take your time.
- Remember you are applying for an architecture program – try to frame your responses with that in mind.
- Think about space. Think about shape.

Enjoy, and good luck!

Regards,  
The Faculty and Staff of the Spitzer School of Architecture
